ABOUT GLOOKO

Glooko is a leading diabetes data management platform and is trusted by many of the world’s leaders in diabetes care. Over 1 million people with diabetes and 6,000 health systems in 27 countries use Glooko’s FDA-cleared, HIPAA-compliant Mobile, Population Health, and Clinic Upload applications with an aim to improve health outcomes for people with diabetes. Glooko syncs with the world’s most popular diabetes devices and major fitness and activity trackers and supplies personalized, timely, verified patient data such as blood glucose, food, insulin, blood pressure, diet, and weight data.

\*To use Glooko with the TRUE METRIX, TRUE METRIX AIR, and TRUEresult meters, a docking station is needed. Call Trividia Health at 1-866-476-3837 to order.  
\*\*Glooko tested all of the data types we get from Medtronic to claim compatibility with their cloud, but not necessarily with the actual devices.
