SmartLog Diabetes Management Software
Provides for trend statistics over extended periods. Ease of monitoring of conditions and treatment regimes by healthcare professionals, family members and individuals.

- Trend Graph
- Trend Statistics
- Daily Graph
- Logbook

SmartLog can be found on Google Play or App Store.

- Saves time and eliminate errors from manual entry by easy and quick Bluetooth data transfer
- Review data with convenient charts and graphs
- Track carb intake, insulin doses, medication and activity levels along with blood glucose results

Meets ISO 15197:2015 accuracy standards
**CodeSens™ Technology**

- Patented no-coding technology
- Glucose meter can automatically recognize the code number of each glucose strip
- Allows user to obtain the most reliable and accurate results

**Features**

- No coding
- Wide hematocrit range: 15-65%
- Tiny, 0.4 μL sample size
- Fast test time, 5 seconds
- Long battery life, 3000 tests
- Stores 1000 results with time/date
- Total, pre-meal, post-meal, fasting averages over 1, 7, 30, 90 days
- Control solution detection
- Strip ejector button
- Post-meal alarms
- Hypoglycaemia warning
- Alternate site testing
- Data management capabilities

**Clinical Performance**

In this study, the system demonstrates accurate performance.

Clinical data obtained exceeds the minimum accuracy criteria for ISO 15197:2013(2015) where >95% of individual glucose results shall fall within ±0.83 mmol/L (15 mg/dL) of the reference results at blood glucose concentrations below 5.55 mmol/L (100 mg/dL) and within ±15% of the reference results at blood glucose concentrations greater than 5.55 mmol/L (100 mg/dL).
