Blood glucose monitoring can be so much easier

Simple-to-Use:
- One step activation.
- No pre-loading or pre-arming required

Gentle:
- Low triggering force.
- Guided movement of tri-bevel needle ensures minimum pain.
- A good amount of blood sample is obtained while reducing pain.

Safe:
- Automatic sharps retraction system prevents needle from being exposed after use.

Convenient:
- World’s smallest safety lancets.
- Bring it with you anytime, anywhere

Contact Activation:
- Consistent penetration depth.
- Eliminates the likelihood of having to repeat the procedure

For Home use:
Ideal for home blood glucose monitoring purposes.
SAFETiCET™ SC-150
SAFETiCET™ SC-180

For Institution or Clinic use:
When larger blood samples are needed for testing glucose, hemoglobin, cholesterol, blood type, coagulation, blood gas and other applications.
SAFETiCET™ SC-180
SAFETiCET™ SC-220
SAFETiCET™ SC-250

Maximum Comfort, Minimum Pain
Over 91% of users preferred SAFETiCET™ over their existing product.
Survey was conducted with 61 visitors at the American Diabetes Association (ADA) congress 2012 (Chicago).

Instructions for use

1. Twist
   Twist to remove the protective cap.

2. Push
   Push SAFETiCET™ against testing site.

3. Collect
   Gently apply pressure on the puncture site to obtain required blood volume.

SAFETiCET™ SC-180
- Needle Size: 23G
- Penetration Depth: 1.80mm
- Blood Volume: Low

SAFETiCET™ SC-150
- Needle Size: 28G
- Penetration Depth: 1.50mm
- Blood Volume: Micro

SAFETiCET™ SC-220
- Needle Size: 21G
- Penetration Depth: 2.20mm
- Blood Volume: Medium

SAFETiCET™ SC-250
- Needle Size: 21G
- Penetration Depth: 2.50mm
- Blood Volume: High

World's Smallest Safety Lancet

Voted least painful by participants at the American Diabetes Association (2012 & 2013)*
